Move

Young Buck

Standing still for what? Shit
Niggas crazy (We move)
Rollin' to the motherfuckin' wheels fall off (We ridin')
Know that, yeah
Street niggas 'round the world (We move)
Just keep it movin'

They left me hangin', I ain't trippin', not at all, dude
I got a few puppies and I keep on feedin' 'em dog food
I got a few thousand pounds packed in this U-Haul too
I keep a few hundred rounds every time I fall through
Draco in the foreign, niggas
Don't think nobody is safe 'cause I'm ignoring niggas
I got it on me, right on my waist, and I'm just showin' niggas
We move different
Nigga don't got no time to figure out who ridin' and who isn't
Tryna get a quarter key in there on my young nigga's next visit
He got life without parole so ain't no motherfuckin' limit
This my life, this not no show, this not no motherfuckin' gimmick
I seen niggas walk the yard and get stopped at the line of scrimmage

I said move (Nigga, let's move), I said move (I said move)
I'm just breakin' all the rules, nigga done got me all confused
I said move (Nigga, let's move), I said move (I said move)
Knock me off but I refuse, ain't no way that I'm gon' lose
Fuck the world, they all against me, I keep telling you
I know some felons too, waitin' on me to tell 'em move
I said move (Nigga, let's move), I said move (I said move)
I'm just breakin' all the rules, nigga done got me all confused

Captain save a ho, these bitches don't know which way to go
Nigga, it's needles on the playground, kids can't play no more
Really ain't nobody safe, now this bitch just might blow
I'm tryna just fill up my lil' safe now and go get some more
You gotta stay far out the way now, yeah, we call it low
They move a lil' different with this yay now from the five-oh
Y'all might call it trappin', I call it survival
I'm not doin' no cappin', death to my rival
I just seen my celly roll a paper out the Bible
I just watched my mama load the clip up on this rifle
I can't be right there 'cause I know they gon' hold me liable
Some shit that I value and I'm so undeniable, right now I said...

I said move (Nigga, let's move), I said move (I said move)
I'm just breakin' all the rules, nigga done got me all confused
I said move (Nigga, let's move), I said move (I said move)
Knock me off but I refuse, ain't no way that I'm gon' lose
Fuck the world, they all against me, I keep telling you
I know some felons too, waitin' on me to tell 'em move
I said move (Nigga, let's move), I said move (I said move)
I'm just breakin' all the rules, nigga done got me all confused

Watched some niggas lose they life before the trial date
Gotta see a pussy nigga coming from a mile away
Gotta stay strapped and keep on gunning, this that overkill
Even when he fall down, gotta stand over him still
I'm payin' my sister bills, cookin' up in my mama crib

I got a few platinum plaques on the wall and I got some pills
My back been up against the wall and this shit got to give
Right now I'm standing here just cutting through these vacuum seals
You know what this package is? You know what ratchet is?
You know what a whole motherfuckin' tax bracket did?
You know what a whole key'll do if you can handle it?
You know what these ho niggas do if they can't manage it?

Right now I said move (Nigga, let's move), I said move (I said move)
I'm just breakin' all the rules, nigga done got me all confused
I said move (Nigga, let's move), I said move (I said move)
Knock me off but I refuse, ain't no way that I'm gon' lose
Fuck the world, they all against me, I keep telling you
I know some felons too, waitin' on me to tell 'em move
I said move (Nigga, let's move), I said move (I said move)
I'm just breakin' all the rules, nigga done got me all confused
