

You know they say you shouldn't talk about certain shit on records right?  
But see these niggas be doin certain shit  
And leave a nigga with no choice  
But to speak on this shit  
This shit based on a true story  
Ride with me

I knew this nigga who was cold with it  
Give em some product couple hours and let the nigga go get it  
He payed the ticket that I asked for  
Cooked it in a glass jar I told em that I had more  
But somethin funny bout his money though  
Bitch you only buyin 10 what you want a 100 fo?  
My first intention was to hit em in his head but i  
Rather kill a man get em fo his bread so I  
Keep playin like I don't know he a fed when I  
Get the chance I'm a fill em up led  
The whole hood paranoid  
Cuz niggas done went put down on whips that they cant afford  
I got the kids on a bikes with the walkie talkies  
Cameras all around the projects to keep em off me  
I hope my child ain't gotta go through this bullshit  
See daddy got beef but daddy got a full clip

This is the life of a sniper  
Nowhere to go just me and my rifle  
Lord only knows whats gon happen when the night come  
Scope out my target and hope I hit the right one

I'm throwin shells in the 12gauge  
Wipein out my fingerprints  
Waitin on yayo so we can get the rest of it  
What you bitches think I wont hop up out this mini van  
I shoot at any man  
I be damn if I get in  
Stay with me your worst nightmare when niggas take it there  
I gotta gun so you get wanted we can make fair  
Fuck that I buck back this semi-automatic  
Than I come back the next day to let yo hood have it  
Not the average nigga standin on this corner tryin to get it  
What you doin I done did it I really live it the streets know  
My ghetto hero ain't never been no Michael Jordan  
Its fucked up when you want em but you cant afford em  
If you cant beat em join em but I rather rob em  
If my baby cant eat than we gotta problem  
You ever been inside a home invasion  
Well I'm about to take you niggas on a long vacation  
When the clock strikes 12 the hammer hit the pin  
Another sniper's on CNN again damn

Nigga get your gunz when you come around here this shit is not safe

This is the life of a sniper  
Nowhere to go just me and my rifle  
Lord only knows whats gon happen when the night come  
Scope out my target and hope I hit the right one
