

Much Deeper

Young Dolph

Used to think life was all about money and reefer
Till I got older, realised it's much deeper
Seems like everything you love the most leaves ya

Used to think life was all about money and reefer
Till I got older, realised it's much deeper
Seems like everything you love the most leaves ya

3 4 times I seen my life flash in front of me
I can't die now, I got 2 lil brothers up under me
Everyday sent them to school fresh as they wanna be
1 time for my [?] squad fam
R.I.P. Big Boo, Lil Cor and Lil Sam
2 left by the gun, and 1 in a wreck
I been through both situations and I ain't left yet
I'm still here, damb I'm still bretheing
[?] fell asleep while I was speeding
Grandma told me everything happens for a reason
I almost left her without telling her I was leaving

Used to think life was all about money and reefer
Till I got older, realised it's much deeper
Seems like everything you love the most leaves ya

Used to think life was all about money and reefer
Till I got older, realised it's much deeper
Seems like everything you love the most leaves ya

News for the day, my uncle just passed, man

Give grandma a kiss, and tell her that we all love her

Till I got older, realised it's much deeper
Seems like everything you love the most leaves ya
