

# Never

Young Dolph

Never take a bitch where you stay  
Never keep work where you lay  
I woke up this morning said fuck it might go cop another coupe today  
Sipping on that UGK  
My spot stay open its never too late  
Never with my family starve  
Cause never will I not hustle hard  
Never [x12]

Never keep work where you lay  
Never take a bitch where you stay  
Never show a nigga where your stash at  
Cause that's gon' be the same nigga you blast at  
Never put shit past none of these hoes cause all of these hoes straight ratc  
het  
All of this hustling shit I got this from my daddy  
Vegetarian selling nothing but pounds of collard green and cabbage  
My trap booming, your bitch working  
Up a half a ticket and I'm still serving  
Legend in the trap like Julius Erving  
James Worthy, I don't trust these bitches cause they ain't worthy  
I don't like triffling hoes cause they make me nervous  
I don't fuck with broke boys cause I think I'm allergic  
Aachoo God bless me  
Sipping on Actavis, eating fettucine  
I told these niggas [x4]  
That they could never be me  
My nigga gotta do this shit for real  
I stash 60 p's of strong in your bitch crib

Never take a bitch where you stay  
Never keep work where you lay  
I woke up this morning said fuck it might go cop another coupe today  
Sipping on that UGK  
My spot stay open its never too late  
Never with my family starve  
Cause never will I not hustle hard  
Never [x12]

Never fuck with fuck niggas who outta line  
If they don't want the business I tell em stay out of mine  
My nigga got a quarter hoe niggas was droppin' dimes  
How these niggas see him they silent without a spine  
Never fuck with niggas that gossip  
Never fuck with niggas who hate  
Never fuck with niggas who pretend they only tryin' to steal off yo plate  
Pussy niggas fake trying to make somethin' shake  
But I'd rather hit they face and try make somethin' break  
Run off in this, get to dropping, try to make somethin' skate  
20 birds in the trunk, talking helluva weight  
36 come short I'm talking helluva wait  
I'm in the bitch by tint low glass  
In the hood Truth hustling his ass off  
Turnt up ain't no way to cut this cash off  
Quarter mill yeah I spent it on my last house  
I tell a bitch I don't love shit fuck somethin'  
Run off in this get lost then duck somethin'

Ho niggas too foul might punch somethin'  
I ain't feelin what they talking I'm a buck something  
I don't trust nothing everythang shady  
People set you up, might be yo ole lady  
Low right hand man try to play gravy  
They on my radar but fuck 'em it I'm a play crazy

Never take a bitch where you stay  
Never keep work where you lay  
I woke up this morning said fuck it might go cop another coupe today  
Sipping on that UGK  
My spot stay open its never too late  
Never with my family starve  
Cause never will I not hustle hard  
Never [x12]
