

# Shittin On The Industry

Young Dolph

I got ten grams of strong, in the raw cone  
Your bitch just jumped in my car, with no draws on  
You still got it [?] all gone  
I'm iced out, and I ain't even got it all on  
Uncle told me keep a backup plan to fall on  
I'm doing shows, but still got five plugs to call on  
My favorite tool was the scale before the microphone  
Post up in your hood with the sack, and treat it like it's home  
Fuck the rap game, it's full of flossing ass niggas  
I came from the hood, with nothing but robbing ass niggas  
Most of these niggas lame as fuck, ain't ever had no cake  
Everyday a birthday, that why we celebrate  
This bitch all up in a rich nigga face  
Eh my nigga, come get your bitch, come put her in her place  
You see this shit round my neck, boy I'd die about it  
Used to be fucked up, went and got a million, nigga I ain't cry about  
it

I just scratched your main bitch off my list, nigga  
Spent your favorite rapper advance on my wrist, nigga  
I'm eating steaks and drink syrup up in RuCrisst, nigga  
I just scratched your main bitch off my list, nigga  
Spent your favorite rapper advance on my wrist, nigga  
I'm eating steaks and drink syrup up in RuCrisst, nigga  
You wanna know who run this shit, go ask your bitch, nigga

I just asked your sister what that pussy hit for  
I just scratched your main bitch off my list, bruh  
Got a spot out in [?], just to hide the paper  
Got a house out in [?], just to hide the choppers  
[?] stashed it in my locker  
Went to class and told the teacher I ain't doing shit  
If I ain't selling weed, I'm skipping school with a bitch  
Guess who baby mama DM me, say you the shit  
I would tell you, but I'm always starting shit  
This Roli got them hammer time rocks, they too legit  
I'm all about my paper, I don't indulge in foolishness  
Yeah you a good rapper, but I really know you a bitch  
You rappers mad at me, they asking what's the big deal?  
To get to where I'm at, them suckers signing six deals  
Just got a [?] pack [?]  
Na I ain't got no rap enemy, I'm just shitting on the industry

I just scratched your main bitch off my list, nigga  
Spent your favorite rapper advance on my wrist, nigga  
I'm eating steaks and drink syrup up in RuCrisst, nigga
