

Broken Hearted

Young Dro

Broken-hearted
Not again
Broken-hearted
Baby
Broken-hearted
I think we can fix this

I ain't mean to leave her broken-hearted
I was so in love with where we started
That shit got real crazy when we parted
I ain't mean to leave her broken-hearted
I ain't mean to leave her broken-hearted
I was so in love with here we started
That shit got real crazy when we parted
I ain't mean to leave her broken-hearted, broken-hearted, broken-
hearted, broken-hearted
I ain't mean to leave her broken-hearted

I don't wanna leave. I ain't mean to do it
I don't wanna talk. I ain't feeling good
Shorty mad at me man we going through it
My baby tryna leave please don't do it
I'm tryna fight the feeling man it's killing me
You the only girl that I really need
You the only person that believe in me
You got my down on my knees

I ain't mean to leave her broken-hearted
I was so in love with where we started
That shit got real crazy when we parted
I ain't mean to leave her broken-hearted
I ain't mean to leave her broken-hearted
I was so in love with here we started
That shit got real crazy when we parted
I ain't mean to leave her broken-hearted, broken-hearted, broken-
hearted, broken-hearted
I ain't mean to leave her broken-hearted

When we were making love I was putting it down
Now you say you hate me oh baby nah
I left up out the house and and I ain't then turn around
My hurt is on fire man it's burning down
Baby I miss you
I really wanna kiss you
I'm on my knees crying somebody give me a tissue
And I like the way you make a nigga feel in bed
And all the shit we going through is fucking with my head

I ain't mean to leave her broken-hearted
I was so in love with where we started
That shit got real crazy when we parted
I ain't mean to leave her broken-hearted
I ain't mean to leave her broken-hearted
I was so in love with here we started
That shit got real crazy when we parted
I ain't mean to leave her broken-hearted, broken-hearted, broken-
hearted, broken-hearted

I ain't mean to leave her broken-hearted

Day 3
