Day 3

Droski, holla at me

When I walked up in the club

I was feeling like crap man

I had a pocket full of bands

Rocking Balmain jeans, dead fresh up out the trap man

Lil dark-skinned thick pretty chick walked up to me and she brought me to the lap dance

I don't care nothing bout the money on the floor

Baby you can have it all

I just wanna see your booty go round and round

Round and round, round and round, round and round

Shawty got a band up off them hundreds man, yessir

And when she shake that ass make a nigga feel special

Round and round, round and round, round and round, round and round

I don't care nothing bout the money on the floor

You can have it all

Ah, round and round

I'mma keep it real she my number 1 stripper

Up in V-Live, its just me and T.I

On the purp, I was coughing

When there's perks I'm with shawty

Dark-skinned cutie with a perfect hot body

Shawty was amazing

Hot like Cajun

I asked her where her man at, 'What's your situation?'

This ain't no pimp game

Fuck your strip game

My name is D'Juan baby, first name basis

Said she was stripping to go to school, yeah

She fine and smarter than a fool, yeah

Said baby got a good head all on her

I'm in the club throwing this bread all on her

Man fuck it, man I'm choosing, I said I want her

In the club on Bubba Kush, red eyes only

Shawty so precious with a 10-piece body

With all these racks I can help you through college

When I walked up in the club

I was feeling like crap man

I had a pocket full of bands

Rocking Balmain jeans, dead fresh up out the trap man

Lil dark-skinned thick pretty chick walked up to me and she brought me to the lap dance

I don't care nothing bout the money on the floor

Baby you can have it all

I just wanna see your booty go round and round

Round and round, round and round, round and round

Shawty got a band up off them hundreds man, yessir

And when she shake that ass make a nigga feel special

Round and round, round and round, round and round, round and round

I don't care nothing bout the money on the floor

You can have it all
