

Juice

Young Franco

You got the, you got the juice
Lemme be clear
And let me tell the truth
I love the energy inside the room
Barely hit the club
Baby come inside the booth, is you with that
You got the juice
If my phone ring
Ima come through
And when I come through
Ima bring the goose
And we can turn up until we just can't move
Cause

I just wanna full glass
Sipping where the pool at
Dripping don't get splashed
I just wanna tall thang
Cook when I'm hungry
Smile and a bad ass
I just wanna lil piece
I don't want the whole thang
Baby can I feel that
Bless me
Fresh squeeze

You got the, you got the juice
Let it rain on me like, ooh
Baby gone ride it like cruise
See you shine bright no jewels
You got the, you got the juice
I been underground making moves
But I'm here tonight let's groove
If you down girl come through
You got the, you got the

If you fall in love
Don't fall for me
If I lose control
Don't call on me

You got the, you got the juice
Lemme be clear
And let me tell the truth
I love the energy inside the room
Barely hit the club
Baby come inside the booth, is you with that
You got the juice
If my phone ring

And when I come through
