Underneath

Young Franco

Who could it be?
Cross it out
You know it's me
Try to be there
On my shoulders
Like you care

I'd like to know
What's on your mind
Underneath the colours of your eyes
I'd like to know
What's on your mind
Underneath the colours of your eyes

I'd like to think
It's worth the wait
Don't even blink
And when it's just you
And you're with me
We could see it through

I'd like to know
What's on your mind
Underneath the colours of your eyes
I'd like to know
What's on your mind
Underneath the colours of your eyes

I'd like to know
What's on your mind
Underneath the colours of your eyes
I'd like to know
What's on your mind
Underneath the colours of your eyes
