

Moolah

Young Greatness

All my life I hustled just to get that moolah
And stack my change up and go see the jeweler
Standin' in the kitchen I whip up that work [x2]

All I ever had was the cocaine
My cousin Leeroy was the dope man
And GT switchin' four lanes
On the stove whip the coke up like propane
On the block where the shots go "bang!"
Only real niggas really gon' hang
All my life, you was saved by the bell
I was saved by the cocaine, ay!

Young boys with choppers, young boys with lawyers
We stand in the kitchen and whip out that work

All my life I hustled just to get that moolah
And stack my change up and go see the jeweler
Standin' in the kitchen I whip up that work [x2]

Got the trap house bumpin'
First in the month where the kids run
Got the whole block jumping on fire
Name on ring when I come through
Addicted to moolah, no favors
This feel like a hell of a day bro
I'm falling in love with that coco
Shit run in my veins and my whole soul
Got the whole block in a choke hold
Middle finger to the popo
Cool is so coola, addicted to moolah

All my life I hustled just to get that moolah
And stack my change up and go see the jeweler
Standin' in the kitchen I whip out that work [x2]

...

All my life I hustled just to get that moolah
And stack my change up and go see the jeweler
Standin' in the kitchen I whip out that work [x2]
