

Sade

Young Jeezy

Girl, huh, you should see the way I play
Ain't even gotta stay
Play some Sade
J.U.S.T.I.C.E. League

You know I grind hard, you should see the way I play
You know you run with me, this ain't no ordinary day
Just pull up, catch a vibe, baby, you ain't gotta stay
We gon' sip this Opus One, we gon' play some Sade
I rather be with you than fuckin' off in the club
Hand on her thigh got her wetter than a tub
Pull up, catch a vibe, baby, you ain't gotta stay
We gon' smoke a lil' za, we gon' play some Sade

You ever made love a kitchen stove?
Gotta shut the spot down, yeah, the kitchen closed
Photographic memory, gon' strike a pose
I just wanna stand behind you while you touch your toes
What started on the counter, ended on the floor
Said she 'bout to cum again, shit, I counted four
Just tell me how you want it, you gon' get that
I'm on the road this week, I'm gon' miss that

I bet the neighbors know my whole name
Yeah, Mr. Knock-The-Bed-Out-The-Whole-Frame
Smoke a lil' za, make the sex better
Ocean versus the pool, I make her wet wetter (damn)
Deep conversation, we talk that real shit
We just a vibe when we together, yeah, that chill shit
Put her up on business, and she do the same
Fuck a watch, I gave her million dollars' worth of game

You know I grind hard, you should see the way I play
You know you run with me, this ain't no ordinary day
Just pull up, catch a vibe, baby, you ain't gotta stay
We gon' sip this Opus One, we gon' play some Sade
I rather be with you than fuckin' off in the club
Hand on her thigh got her wetter than a tub
Pull up, catch a vibe, baby, you ain't gotta stay
We gon' smoke a lil' za, we gon' play some Sade

She say she like my grind set
I said what about my mindset?
Intellectual conversation, yeah, that mind flex
Can't see the vision, you ain't mind yet
Wanna see you live your dreams, I ain't tryna stress you
Just follow my lead, baby, let me bless ya
Anything you want, everything you need
Kiss you, slap you on your ass every time you leave
Talkin' dirty on the phone, late-night calls
Took her shoppin' in Capri, we don't do malls
Visionary, damn right, I got a real plan
You in a different league, you fuckin' with a real man
You wanna help me run the world, be my first lady?
Fuckin' in the White House, now, wouldn't that be crazy?
Anything you want, everything you need
You babysittin', baby girl, go and pass

The weed

You know I grind hard, you should see the way I play
You know you run with me, this ain't no ordinary day
Just pull up, catch a vibe, baby, you ain't gotta stay
We gon' sip this Opus One, we gon' play some Sade
I rather be with you than fuckin' off in the club
Hand on her thigh got her wetter than a tub
Pull up, catch a vibe, baby, you ain't gotta stay
We gon' smoke a lil' za, we gon' play some Sade
