

The Picture

Young Love

It's turned into a hot winter
Tonight it's on again
We can back a few more in here
New places become familiar

One time too many
There's a reason you don't mean a single word that you say
These strikes for you
There's a million other things that I'd rather be doing

It's not a test
Don't change the channel til the story ends
Sent you a signal
[?]
Frequency in every one of us
Lost in transmission

Here you are, one person to the world
And the world to one person
Everyone is static to the world
But I see the picture
I see the picture

If you want what I've got, get in line
She's never gonna want you
You can't afford to spend my time
Get lost, why don't you

One time too many
There's a reason you don't mean a single word that you say
These strikes for you
There's a million other things that I'd rather be doing

It's not a test
Don't change the channel til the story ends
Sent you a signal
[?]
Frequency in every one of us
Lost in transmission

Here you are, one person to the world
And the world to one person
Everyone is static to the world
But I see the picture
I see the picture

It's not a test
Don't change the channel til the story ends
Sent you a signal
[?]
Frequency in every one of us
Lost in transmission

Here you are, one person to the world
And the world to one person
Everyone is static to the world
But I see the picture

I see the picture
