

## So Gone (Freestyle)

Young M.A

I just want that vibe back, I wish I can bring that time back  
Like damn 'how we can't rewind that'  
I want your mind back, body and soul where do I find that?  
I know you still love me don't hide that  
Let's stop pretending  
Love I kinda miss that feeling  
Like text messages still pending and still sending  
And I'm still healing, I'm still willing I will get it  
Before I didn't but see listen, please listen  
Before I was blind, Stevie vision  
Cause I was scared of commitment I had to keep it pimpin'  
I was a jerk and I know that shit  
But I'm just tryna make it work like I broke that shit  
Put my pride to the side, naw throw that shit  
I swear to God I wanna cry but I'mma hold that shit  
But not now cause I gotta be hard  
But like Red from Friday I'mma cry in the car  
Fuck a vase full of roses, she want weed and a jar  
Not that typical bad bitch that you meet at the bar  
You was trill, my heart used to beat when I had you  
Fuck, now my heart is a statue  
And now that you gone I'm going nuts like cashews  
And I'm tryna figure out if I should cover this tattoo  
It's feeling bitter sweet it's like I'm happy and sad too  
Hoping I don't see you on your block when I pass through  
Love quotes on the 'Gram I be wanting to tag you  
Would you ever take me back is what I'm wanting to ask you  
I miss watching Power with you  
I miss taking a shower with you, sex by the hour with you  
I miss taking the a-pull of the sour with you  
Will you let me take it down like the Tower's with you  
One last time, let me eat one last time  
I need it one last time  
You ain't gotta respond to me, hey cool that's fine  
They didn't expect this ha, blew they mind  
So gone, I treated you so wrong  
Left the Henny 'lone, now I'm sipping this Patron  
[?] my feelings just is back on, clap off clap on  
I miss seeing you do your head putting your tracks on  
I can't front I been getting my mack on  
Tryna get that head like I'm putting a cap on  
I know you working and all, getting your trap on  
Working at these bars, stacking getting your cash long  
But are you happy just let me know  
Is it that easy for you to let me go
