

Flows

Young MC

Yeah Paul McKenna on the board
My man Erick Labson on the masterin'
And Young MC on the flows: 52 bars and some hooks
Break it down to ya like this
Cause in the studio I got (flows)
And on the radio I got (flows)
And in the video I got (flows)
In the city, yo, I got
Even kitties know I got

The first verse is the genesis, with no menaces
Great for fans and bad news for my nemesis
I'll get you into this, make you all see
When Young gets on the mic it's like a fait accompli
I got flows like the Nile river. I'll make a child shiver
I'll make your hands shake and I'll make your smile quiver
But keep in mind, if a rapper wanna test
I ain't paying for no mics and I ain't cleanin up no mess
Cause my rhymes are continuous and they're contiguous
Clear, concise and not one bit ambiguous
Before you dig you must picture the hole
Just like I picture these flows in my soul
Cause this is for the hip-hop backers, computer hackers
Peace to the international beat jackers
Like the Green Bay Packers play ball when it snows
That's the way that Young MC got flows. Check it!

Cause in the studio I got (flows)
And on the radio I got (flows)
And in the video I got (flows)
In the city, yo, I got
Even kitties know I got
Men and ladies know I got (flows)
Even their babies know I got (flows)
Cats in Mercedes know I got (flows)
Warren Beatty know I got
When I'm 80 yo I got

My flows have made me very big. It's like a scary gig
I keep it clean. I don't come off like a hairy pig
My flows are sober so I'm sorry I can't share a swig
My flows are air-tight, not broke-down or jerry-rigged
Not stationary. Dig the way the people bob their head
And some are flippin' cause they're trippin' off the rhyme I said
I take my time instead of getting too hype
Because the frantic semantics are simply not my type
It's a fight on the mic. When I'm rhymin' I tussle
Like broncs at a rodeo, the rhymes that I rustle
Get people all dancin' a phenomenal hustle
And Judd Dunning helps me work on my abdominal muscles
See nominal trust'll have you listening twice
Like kids do with their parents when they're given advice
Nice college athletes that graduate to the pros
That's the way that Young MC got flows. Check it!

These rappers now-a-day-n, I'm thinkin' that they're just playin'
They're rockin' the mic hella-
quick but I can't understand a word they're sayin'
So I'm-a lead the way in and let them know the time
Like you crawl before you walk, you'd best to speak before you rhyme
See I had to drop a dime. Booty rappin' is a crime
Practice once, twice, three time, four time, all the way to nine
When the flow is goin' fine hit the studio. Drop your line
So when people by your record they don't think it's a waste of time
See time is money so I keep it on schedule
Write it all down, keep the handwriting legible
Money legit, corporate individual
Clock my cheese from royalties and residuals
See here's my thesis, intellect increases
Stay old time and make whole rhymes from pieces
Turn 'em into songs for my record releases
And move people with my mind just like telekinesis
Now lyrics, when I write 'em, suckers try to bite 'em
It happens to me every day ad infinitum
And fans, I excite 'em when I'm doin' my shows
That's the way that Young MC got flows. Check it!
