

# That's Right

Young MC

It goes a one, two, three, watch the tempo  
On the M-I-C, nice and simple  
With the people gettin' off the wall  
Cause the main motivation is for havin' a ball  
And that's not all, yhere's ladies all around the place  
With the speakers gettin' hot from the treble and bass  
And in case you weren't around for the microphone check  
Just listen to the young man move and catch wreck  
There's a party goin' on over here, over here  
The best damn time that you had all year  
The ladies came around in their sexy gear  
And their designated drivers ain't drinkin' no beer  
So come on down, bob your head to the sound  
Yo we know just what we're doin', we ain't screwin' around  
You step in when it's dark, steppin' out in the light  
And we gon have a good time, that's right

Now make you wanna move for a second, that's right  
And if you wanna groove for a second, that's right  
And if you wanna prove for a second, that's right  
Cause we're gonna make you move for a second, that's right  
Now if you wanna dance for a second, that's right  
You wanna wave your hands for a second, that's right  
You wanna shake your pants for a second, that's right  
Cause we're gonna take a chance for a second, that's right

Now when you get in take a look around, start mingling  
Check out at all the earrings jingling  
Brothers like Ringling standin' around so shy  
Because the girls are so damn fly so out the corner of your eye  
You spot one, ooooh, she's a hot one  
You tell your man, "Yo I think I got one  
Not run down, but high class, rather high post  
So I'll see you in a minute brotherman, I'm ghost"  
So ice is broken, words get spoken  
She can tell from the look on your face you're not jokin'  
She's fine enough to be a model or a singer  
And best of all she got a clean ring finger  
Now she looks like a pleaser, but could she be a teaser  
Schemin' on your MasterCard and your Visa?  
But she's a winner and the body is tight  
So your gonna push-up like aerobics, that's right

Now make you wanna move for a second, that's right  
And if you wanna groove for a second, that's right  
And if you wanna prove for a second, that's right  
Cause we're gonna make you move for a second, that's right  
Now if you wanna dance for a second, that's right  
You wanna wave your hands for a second, that's right  
You wanna shake your pants for a second, that's right  
Cause we're gonna take a chance for a second, that's right

So now we're boogien up, and boogien down  
And listenin' to the rhythm of the hip-hop sound  
And everybody around is coolin', no kind of static  
No beef, no grief and no needs for automatics  
See we're having good times like chic

And maybe later on near the break of dawn we'll do the freak  
Along with other dances from way way back  
Before the days of CD's, with LP's and 8-track  
So now the clock is tickin', beats keep kickin'  
The party is live like KFC is fingerlickin'  
And the atmosphere is filled with sweat  
We been doin' it for hours but we ain't done yet  
So let me take this home with my hip-hop poem  
From the brain to the mouth to the microphone  
Like a bird with wings that's ready to take flight  
A quick "Peace" and I'm Audi, that's right

Now make you wanna move for a second, that's right  
And if you wanna groove for a second, that's right  
And if you wanna prove for a second, that's right  
Cause we're gonna make you move for a second, that's right  
Now if you wanna dance for a second, that's right  
You wanna wave your hands for a second, that's right  
You wanna shake your pants for a second, that's right  
Cause we're gonna take a chance for a second, that's right

And I'm Audi like that, that's right  
That's right  
People in the front row, that's right  
People in the back row, that's right  
We gonna let you all know, that's right  
Day and night ya'll, that's right  
That's right ya'll, that's right  
Keepin' it tight ya'll, that's right  
Oooooaaahhhh
