He like a phantom, he like a ghost, get rid of him
Got the stick, fell in love with his body, bullets fillin' him
Damn, buddy, why you shoot him like that?
Why you killin' him?
3-5-7, made him spin, knocked him off the rim
Slumped up with the pump, knocked your head right off the grill
Picked up your chain, dog, five thousand, nah, for real
Twenty thousand, what a deal
Keep your still, 'cause this shit for real
Kill or be killed
I know nigga that be ski masked, shit will get ill
Get your ass out the block 'cause your not built

Bust your head, now your dead
