Okay, that's me, the one you knew, it's me now  
I've always been here, but why do you not know what to do?  
From head to toe, I can't be stopped either, incorrigible  
A few strands of hair wrapped around, greetings say goodbye, ha, ha, ha  
I need more, scrape it all up in my pocket, power ring  
When I open my eyes, I feel like running far away, a supersonic feeling  
The secret of my speed, I won't tell, nevertheless, privacy  
No one can label me, you don't have any value, it's not reality

Ride down the hill, keep our grace  
I can't wait any longer, we're not afraid  
Leave our trace and queens own the game  
We're unstoppable, it's not the same

Ooh, wah, open the locked door and look around  
Blow away the dusty dreams, quickly, if you want, I can make it happen  
Lower your stance and

Shi-, shi- two feet on the deck  
Ea-sy, we're flyin' through the space  
My wheel, my crown, feel like dumb  
My shoes, my wings, we good enough, done

Running like sliding, but this feeling is too slow, like a slow video  
Jump over the rails, even if we fall, up, don't care at all, woo

Watch me now, be careful, we the plug, there's nothing to stop us  
Switch it up, flip it, 540 degrees, we've got the world in our hands  
Far, "Kkokkio"  
Working it out all night, I don't know what it's like to be tired  
Every day, every night, find my way  
I don't need a compass anymore

Ride down the hill, keep our grace  
Breaking the once high walls  
Even if our knees crack and our bodies ache  
If we can make it, we'll move forward

Ooh, wah, open the locked door and look around  
Blow away the dusty dreams, quickly, if you want, I can make it happen  
Lower your stance and

My wheel, my crown, feel like dumb  
My shoes, my wings, we good enough, done  
Shi-, shi- two feet on the deck
