

EASY

Young Rising Sons

God, I love to get to know ya
Sipping on your diet cola
Here, inside your room
God, I love to get to know ya
Sipping on your diet cola
Hold you like a four-leaf clover
5:00 a.m., the sun is pouring
Here, inside your room
I just wanna talk to you

I hate to talk, to talk around in circles
It's so mundane, but weather's universal
And I get so drained, but I am still commercial
Too
Wait out the rain and all the plastic showers
You speak, and I'll hang on every word and vowel
And I like the way that we could talk for hours
Ooh

I love it when you let me in
Stay up late, just talking shit
Laying on the floor of your...
Tell me things you've never told
Anybody else before
It's so easy listening
So easy listening to you

Your lips, my head, some kind of real connection
My shirt, your skin, coffee on ice confession
And I'll let you in because you like to listen
Too
'Cause I like the way, I like the way
You keep my full attention
I'll swim inside, inside your eyes
Eat up my depth perception
And my tongue is never tied
When I'm using it with you

I love it when you let me in
Stay up late, just talking shit
Laying on the floor of your...
Tell me things you've never told
Anybody else before
It's so easy listening
So easy listening to you

God, I love to get to know ya
Sipping on your diet cola
Hold you like a four-leaf clover
5 a.m., the sun is pouring
Here, inside your room
God, I love to get to know ya
Sipping on your diet cola
Hold you like a four-leaf clover
5 a.m., the sun is pouring
Here, inside your room
I just wanna talk to you
