

Guess I'm out of touch and I miss too much  
But you paint me gold and call me sunshine  
Always up in space and I sleep all day  
But you keep me grounded in the meantime

Got me all figured out  
When my head's locked up the clouds

You're my meloyelo, just called to say hello  
Catch me when my head is circling the drain  
You're my wildflower, we could talk for hours  
You're the meloyelo, dancing in my brain

When I'm up against myself again  
Trading punches with my shadow  
Oh come on, be my Novocaine  
My water glass of cheap champagne  
So I don't have to feel today

'Cause you got me all figured out  
When my head's lost up the clouds

You're my meloyelo, just called to say hello  
Catch me when my head is circling the drain  
You're my wildflower, we could talk for hours  
You're the meloyelo, dancing in my brain

You're my meloyelo  
My meloyelo  
When I'm feeling down  
Be my meloyelo

You're my meloyelo, just called to say hello  
Catch me when my head is circling the drain  
You're my wildflower, we could talk for hours  
You're the meloyelo, dancing in my brain
