

## Already Gone

Young Summer

Lonely hearts, underneath the neon  
Catch your eye, together but alone  
You remind, remind me of a love  
That I want but I can't call my own

Feel the new, chemical vibrations  
Do you feel the stars aligning too?  
I rewind, rewind a memory  
Play it over and over with you

I don't know you but I want to, I want to  
I wish I could know you, I wanna know you

Oh you're keeping me awake  
But you're already, already gone  
All of these visions stay  
Now that you're gone  
Why do you linger?

In your eyes, I see the edges of forever  
I'm terrified but want it anyway  
So close to me I can feel your heartbeat  
I should but I can't walk away

I don't know you but I want to, I want to  
I wish I could know you, I wanna know you

Oh you're keeping me awake  
But you're already, already gone  
All of these visions stay  
Now that you're gone  
Why do you linger?

Ooooo what if we stop time  
Ooooo What if you were mine  
Ooooo I can't say goodnight  
Ooooo we can't say goodnight

Oh you're keeping me awake  
But you're already, already gone  
All of these visions stay  
Now that you're gone  
Why do you linger?
