

## Classless Kids

Young Summer

Darling you've been hanging with the wrong friends, haven't you been?  
Sweetheart all talk, but if they look inside, well the joke's on them  
Classless kids just another one of them  
Writing off our heroes (and we won't go)  
Classless kids just another one of them only wishing they could go (and we won't go)  
Got a second, but steer you away  
Got a second, but steer you away  
Got a second, but steer you away, steer you away  
Got a second, but steer you away  
Got a second, but steer you away  
Got a second, but steer you away, steer you away  
Oh

Misfits smiling watching the demise of who you've been?  
So you know when you hear the static play, you've got a friend  
Countless ways to settle up the score  
And don't feel (and we won't go)  
Countless ways to settle up the score  
But don't we feel it (and we won't go)  
Got a second, but steer you away  
Got a second, but steer you away  
Got a second, but steer you away, steer you away  
Got a second, but steer you away  
Got a second, but steer you away  
Got a second, but steer you away, steer you away  
Oh

Be all we try before it's gone  
Take some faith to know that we'll lose  
Walk ahead like we always do  
Be all we try before it's gone  
Take some faith to know that we'll lose  
Walk ahead like we always do  
Got a second, but steer you away  
Got a second, but steer you away  
Got a second, but steer you away, steer you away  
Classless kids just another one of them  
Writing off our heroes (and we won't go)  
Classless kids just another one of them  
Only wishing they could go (and we won't go)  
And we won't go  
And we won't go
