

Close to Home

Young Summer

Running under city lights
Tryin to make it there on time
But I'm just too late
Tryin to make a mental note
Tryin to think about what I wish to hear you say

Ride away tonight
Wanna press rewind

Tryin to make sense
The sound of your voice on the call
It's always been there
But this time it's me left alone
Cuz it can hit this close to home
Close to home

What if I left this state?
Running a thousand ways
It's too late to care
Gonna have to stop someday
Never gonna find that place
Without you there

Find some peace of mind
Trade in this fire

Tryin to make sense
The sound of your voice on the call
It's always been there
But this time it's me left alone
Cuz it can hit this close to home
Close to home

And all I want now is answers
All the way things used to be
Just a hint of you around here
Around here, close to me

Tryin to make sense
The sound of your voice on the call
It's always been there
But this time it's me left alone
Cuz it can hit this close to home
Close to home

Hits this close
