

Echo

Young Summer

Do I, do I, do I
Do I hear you echo
Come through, come through, come through
I've been waiting for you
I know you feel out of touch
You know I miss you so much
Did I hear your echo?
You're tangled in the crowd
I'm coming back for you now
Did I hear you echo?

I am all caught up
And out here it's not the same
I am so afraid to
Even whisper your name
Find me love
Close my eyes and start to count
Find me love
Come out if you're hiding now
Now, now

Will I, will I, will I
Know it when I see you
Come through, come through, come through
I've been waiting for you
It's hard to stay so strong
Whispering move along
Can you hear my echo?
You're drowning in the sound
I'm coming back for you now
Can you hear my echo?

I am all caught up
And out here it's not the same
I am so afraid to
Even whisper your name
Find me love
Close my eyes and start to count
Find me love
Come if if you're hiding now
Now, now

Do I hear you echo?
Do I hear you echo?
Do I hear you echo?
Do I?

I am all caught up
And out here it's not the same
I am so afraid to
Even whisper your name
Find me love
Close my eyes and start to count
Find me love
Come on if you're hiding now
Now, now

Do I hear you echo?
Do I hear you echo?
Do I hear you echo?
