Fever Dream

Young Summer

Found these buried words and easily I said goodbye
Digging up the past wondering where you are tonight

I can't breathe tucked under these sheets
I can't breathe with you this far from me

Turning over time here in my sleep (in this fever dream)
Sleeping on the side you used to be
In this fever dream

Seven stories higher than I was this time last year
Separate the thread of what I always hoped and feared

I can't breathe tucked under these sheets
I can't breathe with you this far from me

Turning over time here in my sleep (in this fever dream)
Sleeping on the side you used to be (in this fever dream)
Turning over time here in my sleep (in this fever dream)
Sleeping on the side you used to be
In this fever dream

Wake up one day will you wait on me
Stay close by when I'm hard to keep
Wake up one day will you wait on me
Stay close by when I'm hard to keep

I can't breathe tucked under these sheets
I can't breathe with you this far from me

Turning over time here in my sleep (I can't breathe in this fev
er dream)
Sleeping on the side you used to be (I can't breathe in this fe
ver dream)

Wake up one day will you wait on me
Stay close by when I'm hard to keep
Wake up one day will you wait on me
Stay close by when I'm hard to keep
