

Head's A Wreck

Young Summer

First she got in my head, then sat on my bed
And showed me her teeth and said, "Love me dearly"
Now I hope we get far and make some babies
And name them after us or some people we meet in my head

I'm just so glad that you came
I'm just so glad that you came

It's Saturday, my head's a wreck
She's acting like, we haven't met
We're taking shots, we're through can chase
Ran naked down the interstate
We'll take a nap and sleep it off
The morning feel like paper cuts
When one and one and one is three
Drinks it takes to forget me again

I don't regret much more than skin deep
My heart's so cold, I got chattering teeth
I made some mistakes, everyday I hate
I wish I could blow out that piece of my brain in my head

I'm just so glad that you came
I'm just so glad that you came

It's Saturday, my head's a wreck
She's acting like, we haven't met
We're taking shots, we're through can chase
Ran naked down the interstate
We'll take a nap and sleep it off
The morning feel like paper cuts
When one and one and one is three
Drinks it takes to forget me again

It's Saturday, my head's a wreck
It's Saturday, my head's a wreck
It's Saturday, my head's a wreck
It's Saturday, my head's a wreck again
