

# Heart in Slo Mo

Young Summer

Try to deny those eyes  
And the way you touch your hair like that  
You always steal how I feel  
My attentions never fall too fast

And the light on your face glows  
Being pulled into the windows  
Do you know the way out of here  
I bet you will next year

And you come through high as kite  
If you only knew I can change your mind  
Just so you know  
Heart in slow mo  
I'll be waiting for you  
I'll be waiting for you

Don't let it go 'til it's cold  
I could never fight the feeling of you here  
When it's time you will find  
All the push and pull will disappear

And the light on your face glows  
Being pulled in to the windows  
Do you know the way out of here  
I bet you will next year

And you come through high as kite  
If you only knew I can change your mind  
Just so you know  
Heart in slow mo  
I'll be waiting for you  
I'll be waiting for you

The lights leave you blind  
Keep the car running  
If you think that you know  
You got another thing coming

And you come through high as kite  
If you only knew I can change your mind  
Just so you know  
Heart in slow mo  
I'll be waiting for you  
I'll be waiting for you
