Make Waves

Young Summer

I'm not gonna look away
I could stare at you all day
Break my heart, I know you want to
I'll twist and turn it til it's brand new
I see glitter, I see stars
When you melt into my arms
Both get nervous but we like to
Don't mean to dare you but
Let's break the rules, be the fools
Get ourselves lost and lonely

Flat line my mind's running in place
Get that future talk out of my face
I know you want it
I want it too
I just wanna make waves with you
I just wanna make waves with you

I'm not trying to be too much
Just can't help it when we touch
Lucid dreaming when you speak
Close my eyes until I see
Colors hiding underneath

Flat line my mind's running in place
Get that future talk out of my face
I know you want it I want it too
I just wanna make waves with you
I just wanna make waves

You keep pushing, I'll keep pulling
Wanna make waves
You keep calling, I'll keep running
Wanna make waves
You keep stalling, I'll keep falling
Wanna make waves
I just wanna make waves with you
You keep burning, I'll keep spinning
Wanna makes waves
Tell me it's not now or never
Wanna make waves
You keep pulling, I'll keep pushing
Wanna make waves
I just wanna make waves with you
I just wanna make waves with you
I just wanna make waves with you
