Young Thug

Hey Thug, what they say homie?  
Check this out right, bein' broke, that's bad for my health, right?  
I got so much of this shit, I signed myself  
All I want you to do right now, I want you to talk to these folk  
And tell 'em how I really live, right?  
Cause we havin' so much money right now...

And I'm Su Woo but I wrote this with a blue pen  
And this the movement, please join in  
And they like "Thug really do this"  
And I'm lucky to tell ya'll this the blueprint  
And I wonder why they hatin' on me  
I guess the ice got they main bitches skatin' on me  
Maybe my car cause the next year's datin's on it  
TIP, I'm a young king, please put the cape on me  
Thug go in, curfew  
I'm on a lot of tracks, they say the Thug startin' to irk you  
And ya'll eatin' shit that's baby food, burp you  
If Wayne flow is kush, then my shit is on purple  
But my flow is sick, it's dyin', I need a donor  
And I'm so great, when I leave I need a corner  
I didn't ride a wheel so that Phantom gone need an owner  
And your ho be totally screamin' she's not a moaner  
I told Wayne I was ready for the paper like Usher  
He said cool, sit back, stay away from busters  
Now Thug got the big head, I am a gusher  
I am not the best but I am better than others

And I know you believe in me  
And I'm at the top you shall achieve with me  
And I'm not gonna stop so you'll succeed with me  
I have your body frozen, your degrees with me  
And I know you believe in me  
And I know, you know, I know you'll succeed with me  
And I know, you know, I know you'll achieve with me  
I have your body frozen, nigga freeze with me

I'm at the tip top, ain't no toppin' me  
I want the whole thing, now watch me re-rock a key  
And I ain't wanna flex, so I called bee-bee  
Sippin' on this mud got me bobbin' and leanin'  
I hopped out the porch just like Skooly  
Me and Young Thug on this one, it's a movie  
Pull up in that drop head, mouths drop like droopy  
Now they sayin' I got the big head like Stewie  
I took a break from the rap for a reason  
Now I ride drop head flyin' down Cleveland  
Whoever thought me and my crew be ridin' horses  
Paneramic car, that mean back to back Porsches  
They said I fell off cause I ain't brought the new whip through  
But when I bring it back, I'ma paint that bitch crip blue  
And still post up on the ave with my boy big blue  
And a hundred young niggas and they all screamin' Su Woo  
I went to church just to chill in the pulpit  
And Mario got shot, yea that's still some bullshit  
But Thug, I can't let it handle you  
I'mma take you off to Cleveland, aka the Zoo

And my bitch look like a barbie  
I have a new spot, Houston no Marcus  
Nigga you don't wanna start it  
Lil Tee bring the troops, we the sergeants  
Ride the beat like a ROC crew Harley  
And if ya'll ballin' with the bands we Spalding  
Bet a couple M's and I'm all in  
And I'm so high, in 10 days I still be fallin'

And I know you believe in me  
And I'm at the top you shall achieve with me  
And I'm not gonna stop so you'll succeed with me  
I have your body frozen, your degrees with me  
And I know you believe in me  
And I know, you know, I know you'll succeed with me  
And I know, you know, I know you'll achieve with me  
I have your body frozen, nigga freeze with me

Yea, and I'm the motherfuckin' realest  
And any nigga hear about me they say Young the fuckin' illest  
And ya'll motherfuckers brainless, no ceilings  
Bought the new Bentley coupe, the roof I had to fuckin' kill it  
Bought my bitch the new Audi, we have to switch cause I like it  
When I don't like to drive, we bought the jet so I can fly it  
They say I'm sexy but the face look kinda mean so don't fright it  
And niggas know I'm shootin', they say they don't? Then they lyin'  
And if they say they shot back they a front  
The only niggas shot that was the rats  
So shoutout to the rats  
I'm the realest, no front  
I'm sorry I had to kick it like a punt, yeah

And I know you believe in me  
And I'm at the top you will succeed with me  
And I'm not gonna stop so you'll succeed with me  
I have your body frozen, your degrees with me  
And I know you believe in me  
And I know, you know, I know you'll succeed with me  
And I know, you know, I know you'll achieve with me  
I have your body frozen, nigga freeze with me
