Take your, take your motherfuckin' picture, baby

Take your picture, baby

Okay, you like it when I grind on it?

I ain't gone ever ever stop grindin' on ya, no way

And I ain't gone ever ever deny it, homie

No way, no way, no way, no way

And I'll be a buster for it, no rhymes, homie

Sailing on these boats like a Gilligan

Thinkin' bout another million

Known to be on those silly 'ns

If my jewelry come up missin', man

I'ma be back with like a million friends

We gone try to kill all your siblings

We gone try to kill all your fucking kin

Take a picture of me right now

If I sit there, that's a swaggin' seat right now

Fashion still my passion, 2,000 on white feet right now

Ferrari, bitch, I'm smashin', all black with the red seats right now

Molly white like ashes, got em bitin' down on my teeth right now!

Take your picture, baby, P-I-C

B I be, I'm a Blood, oh my gosh to me

What the fuck? Up my prices, they'll look at my feet

You could skate on my jewelry, bitch, BC

Crystal cut diamonds, man, that's for my B

Real bosses carry Booker's, bitch, tell em please

Real bosses don't fuck hookers, we too fuckin' neat

But she can get below my dick and get Molly knees

She's here to sex out'n the fuckin' street

Beast, got a collar like a fuckin' leash

Peep, this, take your picture miss

But I'm too quick, you might fuckin' miss, yes
