We a never be the same, never be the same, yeah
Everything change, everything change

You don't know what I been through, I swear I been down for so long
You weren't there when I needed you, I realized I'm on my own
I'm somewhere writin' a song, thinkin' 'bout where we went wrong
I swear this shit done got so hard
You told me you would hold me down, but now you ain't nowhere around
I really thought we was forever
(Kelvin Beats)
But as I get older, I learn, forever never be forever
But when them niggas killed lil Dave, I knew that shit there was forever
Pe'nem go out of state for that purp and that drank
When they come back, they changin' the weather
They ask what's my purpose of how I'm livin'
I'm growin' up, I take life serious
Just want to be able to say I did it
At the top of the biggest hotel in the city
Just me and Pete talkin' bout the riches
I feel complete, but it's somethin' I'm missin'
I feel like nobody fucking with me (Yeah, I feel like nobody fucking with me
)
My girl foreign, from Costa Rica
I'm tryna get in good with her people
If you believe that, then quit fuckin' with me
She say "You see that I'm still fuckin' with you"
When she catch me down worryin' 'bout a nigga
She pick my head up, say "Fuck all this niggas"
When she catch me down worryin' 'bout a nigga
She pick my head up, say "Fuck all this niggas"

Tell them get on they shit if they hatin' (If they hatin')
He go against the grain, we gon' slay him
I do this for Ari and Bayne (Ari and Bayne)
I think about y'all on the daily
Passion all I ever needed
Fuck all the ones who betrayed me
Saw my niggas fall off and get on (Get on)
Shit, I just wanna tell them we made it (We made it)

No I ain't rich (No I ain't rich)
But this life I live so amazin'
I just wanna take care of my baby, I just wanna take you to Jamaica (Jamaica
)
No I ain't rich (I ain't rich)
But this life I live so amazin'
I just wanna take care of my baby, I just wanna take you to Jamaica (Jamaica
)

Put on a front just to hide the pain
I'm in too deep, it won't never change
I know we a never be the same
But this feeling I got, it won't go away
I a go to war for you girl, any day
Yeah, you know I stay strap with that throwaway
Red in my cup, take away the pain

Stick together with me though the rain
What we goin' through, that life of fame
They don't want to see us together, maine
On everything, no, no I won't ever change
On everything, girl, you bet' not change
What we goin' through, that life of fame
They don't want to see us together, maine
On everything, no, no I won't ever change
On everything, girl, you bet' not change

Tell them get on they shit if they hatin' (If they hatin')
He go against the grain, we gon' slay him
