

Doomed

YoungBoy Never Broke Again

(This shit gon' be crazy, Jacc)
(What up, Foster?)

How many hours or how many days it's gonna take for to clear out my mind
Or maybe this shit gon' forever be with me
I just gotta handle with time
Can you help me understand whats wrong
I'm in it can't quit it, we slangin that iron
Keeping my distance to cherish my time
Show how I feel without giving no sign

Mmmmm, who I want, you who I don't wanna lose mmm
Falling over you now I'm your fool
All out war, play games it make me break rules
The outcome it might leave us all doomed

I say it's whatever, I turned to the Devil
I'mma live like a villain forever forever
I'm the man and indeed you better be special
Hit my weed but still ain't clever
Slang heat, fuck it, preach like Reverends
Killed 3, dump died, still ain't settled
Night time creep, take five, I'm ready
Love came in ain't make shit better
Gotta go to the dirt, I'm prepared for the worse
It ain't none bout this shit I say special
But the way that they floppin because of the bezel
I call out the issues, I'm naming out several
Either way it could go so I gotta be careful
I'm in love with your body, you don't give me no pleasure
Devastate you with knowledge, a statement could kill us
Just watch how you talking when I'm in the picture

How many hours or how many days it's gonna take for to clear out my mind
Or maybe this shit gon' forever be with me
I just gotta handle with time
Can you help me understand whats wrong
I'm in it can't quit it, we slangin that iron
Keeping my distance to cherish my time
Show how I feel without giving no sign

Mmmmm, to you, you make me feel I should prove
Start then stop, these gimmicks got me rude
Just for the daily 10 with a stick, he gon' come out the roof
Stay with the shit, let it hit, pull it back then he lettin it boom
You know that I'm loving you
I believe you love me without no proof
Do they really fuck with me
Seeing this shit, it ain't clear as the moon

Mmmmm, who I want, you who I don't wanna lose mmmm
Falling over you now I'm your fool
All out war, play games it make me break rules
The outcome it might leave us all doomed

How many hours or how many days it's gonna take for to clear out my mind
Or maybe this shit gon' forever be with me

I just gotta handle with time
Can you help me understand whats wrong
I'm in it can't quit it, we slingin that iron
Keeping my distance to cherish my time
Show how I feel without giving no sign
