

# Fight With My Sheets

YoungBoy Never Broke Again

Mommy, India got them beats

Fight with the sheets nightly, they never gon' tell  
Long as you beside me, how the Hell I will fail?  
Lost feelings in the streets, some to lights  
They can never prove us wrong, I can never prove 'em right  
They said, "There's a fire in the building"  
I heard she's inside of the building  
You stuck inside somethin' toxic and it's killin'  
Tell them they don't get you out there then I will kill them

Up all night workin', I'm late night servin' verses in this bitch  
Tryna keep my girl happy, I ain't in your business, but I see that shit  
Know I'm toxic as it get  
So I know that you tired, and for sure it's time for to go  
Pull up, don't live there no more  
They told me that fire was in the building  
And they say you was stuck inside, and I came for to help you out  
And these people stoppin' me right now, they trippin'  
She up in somethin' toxic, it won't help out, but I will kill them

Patek Philippe on the top of my arm  
Got me like Jeezy the way you blew me away  
Ain't nobody safe, ain't no time to play  
Huh, I'm gon' confiscate, got to concentrate, grind through the pain

Fight with the sheets nightly, they never gon' tell  
Long as you beside me, how the Hell I will fail?  
Lost feelings in the streets, some to lights  
They can never prove us wrong, I can never prove 'em right  
They said, "There's a fire in the building"  
I heard she's inside of the building  
You stuck inside somethin' toxic and it's killin'  
Tell them they don't get you out there then I will kill them

Remember when we met, but I can't remember when we meet  
Late at night I fight with my sheets  
Our bond's too strong for disagreements  
Heart got no code and no alarm, I hold you tight inside my arms  
Just wan' say I'm here to stay, my love, I ain't changin' with the seasons

Patek Philippe on the top of my arm  
Got me like Jeezy the way you blew me away  
Ain't nobody safe, ain't no time to play  
Huh, I'm gon' confiscate, got to concentrate, grind through the pain

Fight with the sheets nightly, they never gon' tell  
Long as you beside me, how the Hell I will fail?  
Lost feelings in the streets, some to lights  
They can never prove us wrong, I can never prove 'em right
