

How You Been

YoungBoy Never Broke Again

(Leor, light it up)
(Oh, Hicks made this shit)

How you been, how you been my brother?
All alone where I been
I hope we thinkin' 'bout each other

It ain't even been that long, it feel like sixteen years
Been with me since my sixteen years
Seem to can't shed a tear
Since you been gone it been goin' down
World know I'm known to kill
It's been so hard for to live life, and that's the real
I'm like lil' Dave, how you been doing?
I been still in the gutter
I'm like lil' Tug, what you been doing?
I been still in the struggle
Lil' Jordan, you know how I be doing
Tell my grandma that I love her
Big Dump, you know I miss you
Hope you watching over your lil' brother
How I been, holdin' on, I know, know
You ain't here I'm still breathing after all I should be gone
Thankful that I'm still living, you know I just want you 'round

How you been, how you been my brother?
All alone where I been
I hope we thinkin' 'bout each other

Know how we got it, we come straight from the gutter
You know me still out here hustling
No, we'll never stop thuggin'
Still hold it down for our brothers, know all we got is each other
Plus Montana never hurtin' for nothin', wish you could see how we bubble
You gone to me, I never lost you so together we forever win
Slip one time we launching so we strapped up, talking ten to ten
Kill one then we killed one back to back, this shit won't ever end
Ridin' 'round, lil' Ben, I got his back so I forever ten

How you been, how you been my brother?
All alone where I been
I hope we thinkin' 'bout each other

How you been, how you been my brother?
All alone where I been
I hope we thinkin' 'bout each other
