(Hey, LilKDubb)  
Forever by my side, I thought, I thought  
I'm so sorry  
I don't even know who I am right now  
I can't even make a good song

Strong pains all in my head, feel like somethin' got my heart  
I just want this pain for to end, I don't feel how I felt from the start  
I thought you'd forever be here (Yeah)  
Forever by my side, I thought, I thought  
I keep smokin' back to back and it got my head up spinnin'  
I keep feelin' this line keep goin' down my heart  
I keep thinkin' and dreamin' that you standin' here right with me  
Every time I come back to life, I swear it's hard

I got four lil' boys that I'm hardly spendin' time with (Time with)  
Chasin' money, I ain't worried 'bout who you spendin' time with (Uh, uh, uh)  
Being petty, I don't wanna talk, I'm on some slime shit (Oh, slime)  
I won't tell you you got me fucked up, but my mind bent (Bent)  
Guess that nigga that you've been fuckin' love you better (Love you better)  
How I'm feelin'? I've just been thinkin', "Should I tell her?" (Should I tel  
l her?)  
I'm fine, I'm feelin' better  
Tryin' not blow my mind with this Beretta  
On house arrest, I can't go visit Grandma grave, oh  
Be lovin' so easy, can't let these bitches take my soul (My soul)  
I pray for my sons like every day down the road  
And I'm not givin' time just for to see 'em 'cause these hoes  
Back then ain't have nothin', they all want somethin', I'm just one nigga (O  
ne)  
Thought money'd make it better, but it turned me to a killer  
Not jeopardizing for myself, it's on the line for my niggas  
Sling that iron at one of us, won't make a song before I kill 'em, I'm just  
realer  
And shorty bad, I could be with her, but don't give a fuck (Give a fuck)  
I love my girl, I'm gon' stay with her, plus she natural  
Plus youngin thuggin', he slung that iron just to hang with us (Grrah, grrah  
, grrah)  
I feel I'm leadin' these kids wrong, but we stay dangerous  
Bitch play with us, want smoke with us? Bitch, we gon' bang you up (Pop, pop  
, pop)  
When it be war, we go all out, it ain't no tamin' us (What up?)  
Knock you off and watch your mama live, it ain't no shame in us (Bang)  
I'm screamin', "Fuck the fame and lies," 'cause it brought change to us

Strong pains all in my head (My head), feel like somethin' got my heart (Oh)  
I just want this pain for to end (End), I don't feel how I felt from the sta  
rt  
I thought you'd forever be here (Forever, forever)  
Forever by my side, I thought (That's what I thought, I was just thinking),  
I thought (I was wrong)  
I keep smokin' back to back and it got my head up spinnin'  
I keep feelin' this tight line goin' down my heart

I keep thinkin' and dreamin' that you standin' here right with me (Ayy)  
Every time I come back to life, it hit me hard

Show no slatt, everyone cried before  
Every time that I cried, no one wiped my nose or neither my eyes  
But it's okay, I just had to realize that I can't break  
Show no slatt, I done cried plenty times, ain't nobody wipe my nose, nigga  
But it's okay, I'm on my own and I'm findin' a way  
I'm grown now, I ain't no baby  
Yeah, and we still thuggin', nigga, we still hollerin, "Fuck you," nigga  
You hear me?
