

# Left Hand, Right Hand

YoungBoy Never Broke Again

I don't trust you cause you dab with the left hand  
I keep something up on my hip, that's my right hand  
All my dogs come first  
All lost in the purp  
Left hand doing numbers  
Right hand doing work

Left hand, right hand  
Left hand, right hand  
Left hand, right hand  
Right hand, right hand  
Left be working in the right  
Coming right back  
Yeah I left to get it right  
Now I'm right back

Still move the wheel with my knee while I count up bands  
I show love and affection to all my fans  
I got Ferragamo holding up my pants  
I turn up on the stage while I hit my dance  
I get serious when it comes to business  
Don't waste my time boy you know that I ain't playing  
I got a clique of niggas with me  
We dumb twenty hoes laying where I'm staying  
I never dap you with the left hand  
I draw down with the Glock in the right hand  
I got podnas with me when I walked in  
Live shooters waiting and I'm screaming fan  
I swear that I'm hot boy I need a fan  
I got prices and sell and they all paying  
Make it work while I'm using the left hand  
Bring it back while I'm using the right hand

I don't trust you cause you dab with the left hand  
I keep something up on my hip, that's my right hand  
All my dogs come first  
All lost in the purp  
Left hand doing numbers  
Right hand doing work

Left hand, right hand  
Left hand, right hand  
Left hand, right hand  
Right hand, right hand  
Left be working in the right  
Coming right back  
Yeah I left to get it right  
Now I'm right back

Drilling a hole while I'm using a nail  
Dump in the cut while G wrapping a bail  
Ben at the street while he watchin' for 12  
Straighten up my hand right after they deal  
Dope ain't come back when I whipped so I fail  
Stroke got pack coming all through the mail  
DP had that purp floating all through the jail  
Mac and a Compaq I work off of Dell

Left and right hand I use both 'em well  
Right and the left I can use for the sprayer  
Don't get in my way, I ain't taking a L  
Ain't got no room, I'm a grinder forreal  
Way I'ma be, only timing could tell  
You know I go hard, I be bringing them here  
I'm washing the residue off of my nails

I don't trust you cause you dab with the left hand  
I keep something up on my hip, that's my right hand  
All my dogs come first  
All lost in the purp  
Left hand doing numbers  
Right hand doing work

Left hand, right hand  
Left hand, right hand  
Left hand, right hand  
Right hand, right hand  
Left be working in the right  
Coming right back  
Yeah I left to get it right  
Now I'm right back
