

Rear View

YoungBoy Never Broke Again

Why you treat me like I don't mean nothin at all to you
Just like I'm a nobody
But fuck you for nobody
Why you trippin and I ain't do nothin at all to you
Every time you gotta leave
You just get so toxic

She grillin me
She leaving
Cause she know I could change
But know I won't for her

She got my name tatted
Then 3 weeks later
I gave her money
She left the house
Then text a paragraph bout how she done

We ain't never had no one on one
But maybe that's the problem though
Or maybe it's that nigga getting to you girl
I understand

How you downgrade me
I'm your man
Probably ain't got another man no way

She said I don't love her like I say
I could never trust her
This a shame

Hard to live life like XO
Runnin out of vibes
Steady pop my ex though
Watch it I be crushin my tech no
Lookin through the rear view
Tryin to make sure I don't die

Hussle and fight
But you don't wanna leave
Take a look in your eyes
I don't know what I see
You can't deny
There's some things you need and
My love is just one of those things
But

I should of let you go
Can't seem to lose control
Chased it for way too long
Yeah

Are you looking for me in the crowd
At your show
When you walked out
Know you wasn't gonna

Remember all the songs
I was off you're alone again
I'm heart broke I'm on my own
Again
He signing out and selling souls
Fuckin fans
And I won't put out
One in
Said you wanted love
But it don't make sense baby
Every thug need a girl
With a clip baby
Truth is
You know I know
You missin me
Baby

Hard to live life like XO
Runnin out of vibes
Steady pop my ex though
Watch it I be crushin my tech no
Lookin through the rear view
Tryin to make sure I don't die
