

Treat You Better

YoungBoy Never Broke Again

Be with the one who love you (This Vade on the keys)
I think he can treat you better
I ain't got no trust, that's why I duck you
When I know I should do better, when I know I should be better, I do better
Let me love you in my own way, that's from a distance
I said "Fuck you", I was on them drugs and I was trippin'
I can't be for you 'cause I'm not for no one, but like no one, I'll be there
for you
I'ma have your back and blow my strap just like a thug do

Ayy, hit my phone if that pussy nigga rough you
Make 'em buck me down with them cutters when we cut through
Your lil' nigga 'til the end, baby, I can't never dump you
When you can't make it to your friends, baby, I'm the one you run to
I'ma have you, couldn't look me in my eyes, baby
Don't tell no lies, baby, don't come out in disguise, baby
You feeling dude, he turn you up, I'm on the side, baby
I'm just thinkin', is it that I'm crazy?
I'm completely out of my mind, baby
We tote four tools, we be tryna knock 'em when we slide
I zip four fools, I probably zip your manes and make you cry
Ayy, I can't hold you, I don't stay the same, you gon' need another guy
I done passed my level, way beyond, on top the sky and still gon' tell you

Be with the one who love you
I think he can treat you better
I ain't got no trust, that's why I duck you
When I know I should do better
When I know I should be better, I do better
Let me love you in my own way, that's from a distance
I said "Fuck you", I was on them drugs and I was trippin'
I can't be for you 'cause I'm not for no one
But like no one, I'll be there for you
I'ma have your back and blow my strap just like a thug do

I can't tell that you been real, 100, true
That you love me, bitches love me, too
Numbers don't like, homie, I-
And I can tell
You fuck with me but you fuck with that too
So for that, I can't fuck with you

Be with the one who love you
I think he can treat you better
I ain't got no trust, that's why I duck you
When I know I should do better
When I know I should be better, I do better
Let me love you in my own way, that's from a distance
I said "Fuck you", I was on them drugs and I was trippin'
I can't be for you 'cause I'm not for no one
But like no one, I'll be there for you
I'ma have your back and blow my strap just like a thug do
