

# What You Gonna Do

## YoungBoy Never Broke Again

(17)

(D-Roc)

Young man, young man

Oh, oh, oh, oh

Oh, oh

Sung in the choir when I was a child, when Grandmom died, my life got worse  
Passenger side while in the ride, I made a ski mask out of my shirt  
Stand like a pope until I'm in the dirt  
Gravedigger, he don't like to flirt, he said he need some work  
He could kill or play the block, watch out for cops  
Watch how you move, you take that wrong step, then we stop  
He go by Top and he killed plenty and they wanna see him knocked, put in a box  
Presidential, he official, they want the switches on they Glock  
Ask me how I know, from the pattern, left inside my five car

Nigga, I want static, we get active, I say, bitch, let's go to war  
I say, better make sure you ready, here they come

Young man, young man, ooh (Young man)  
What you gon' do when they come for you?

This shit should be over  
They comin' to take your motherfuckin' soul and you sittin' around dancin' and playin' with these hoes  
Like we ain't got them Glock's out, tryna knock your top off  
Take it easy, boy, I'm with big C, know that's Choppa Boy  
Disrespect, trip to the doctor for it  
Sprint, take off his spinal cord  
Now run, dumb bitch  
Couldn't get your gun inside the club, but I bet my gun did

Young man, young man, ooh (Young man)  
What you gon' do when they come for you?
