Youngn Lipz

It's love then what is it?
And she go, go, wanna leave me
Is it love? Maybe it's love I am feeling
I was in a state where I swear I nearly lost it
I remember late nights, thinkin' 'bout you often
How you gonna fake love? That's not what I'm on
See them just come and go, and now they can't ignore it

Yeah, we been broke before
Steady trappin', I wasn't rappin', we was kickin' doors
I seen that bright light came, and it showed me more
Jumped in the booth, don't get it twisted, we still do it all
Don't need to make the call
I was in a state where I swear I nearly lost it
I remember late nights, thinkin' 'bout you often
How you gonna fake love? That's not what I'm on
See them just come and go, and now they can't ignore it

I swear my city really feelin' me, all the rest just enemies
It's fuck the other side, they say it back and that's just how it be
Things really get ugly when you're born and bread up on the streets
Only speak the truth, oh no, you'll never find the fraud in me
Ice now glistenin', Lord as my witness
Yeah, I been down a lonely road but I can never fall
Same reason I can never stop and leave it all
I'm goin' ten toes
I see you're lookin', but you lost and you anxious to get it
Could never fall off short, I just make an appearance
Check your girl 'cause she a fan of me
Honest truth, I know how to keep them, let her handle it
Or let her handle me
No love for them
I can never be caught up in the moment
LV on my feet, wasn't there before, yeah
Can't forget the times when it was winter in December
Lurkin' all them nights, if you were there, then you'll remember

Yeah, we been broke before
Steady trappin', I wasn't rappin', we was kickin' doors
I seen that bright light came, and it showed me more
Jumped in the booth, don't get it twisted, we still do it all
Don't need to make the call
I was in a state where I swear I nearly lost it
I remember late nights, thinkin' 'bout you often
How you gonna fake love? That's not what I'm on
See them just come and go, and now they can't ignore it (Yeah)
