

Fallen

Youngn Lipz

It's been a long, long, long, long, long, long time
I'm feeling awake, I'm tryna get mine
Tsunami, the wave, don't get left behind
Gotta move on, on, now, now, now, now
You speak on my name, your head in the clouds
My G got the chopper, we rolling around
Feeling like I'm heartless, I got all the rounds

You ain't runnin' shit, so don't speak on my town
Voicing up the streets, so we started it now
Looking for your head, go and check lost and found
It's been a long, long, long, long, long, long time
I'm fighting all ways, I hope I'm allowed
I made my mistakes, tryna make you proud

I was so lost then, too many problems
Moving on the road in my ends, me and balaclavas
We was only tryna make bread
If we get it then what's mine's theirs
Remember ducking out the bro's shed
We was trapping out the basement
I still move it along, I'm standing ten toes
I might even put on a show
My brothers on go, not playing no more
Young G make you hit to the floor
Why you talk like you with it
I ain't never seen it, the drugs got you dreaming
I said what I meant and I meant what I said
If they ask what I'm meaning, yeah, yeah, yeah
Free bro out the pen, I mention again
I'm missing my team and my friends
I'm sliding for fam, I'm riding for them
Can't wait till the day we all land
Can't lack now we flowin'
Took a minute, yeah I noticed
I was healing from the fallen

It's been a long, long, long, long, long, long time
I'm feeling awake, I'm tryna get mine
Tsunami, the wave, don't get left behind
Gotta move on, on, now, now, now, now
You speak on my name, your head in the clouds
My G got the chopper, we rolling around
Feeling like I'm heartless, I got all the rounds

You ain't runnin' shit, so don't speak on my town
Voicing up the streets, so we started it now
Looking for your head, go and check lost and found
It's been a long, long, long, long, long, long time
I'm fighting all ways, I hope I'm allowed
I made my mistakes, tryna make you proud

I don't really waste my time but the scum wants smoke, what place, let's dine
We got the whole main tray on lock, if you really wanna cross that line
Got me feeling like CB, come a long way from kitchen knives
Took off but still meet ends, hop out the window, get checked by nine

Like why, oh why, oh why, did he really need to grab that pen
Lad signed his own life away, poor boy, now he can never leave his ends
Don't flex if you got no bands, chase bread, give it back to fams
Swear I've been down, but it was God's plan
Yeah, I came up and I'm still that man
I ain't worried the enemy try to befriend of me, they taking losses
I come from the broken, forgotten commission, that gutter, so you're not a p
roblem
I walk around with my head held high, I don't have no fear, I'm a one man gl
ider
If my team want to circle around, then we circle around don't worry, we'll f
ind ya

It's been a long, long, long, long, long, long time
I'm feeling awake, I'm tryna get mine
Tsunami, the wave, don't get left behind
Gotta move on, on, now, now, now, now

It's been a long, long, long, long, long, long time
