Ay

Let me say some shit (let me say something)  
I'll go all day for the six  
Sometimes our dates get ditched  
Just so I could take that trip  
I'm pissed (fuck) 'cause I love my trip (I do)  
I'm sorry, babe, you can't complain because  
This is the life I live  
All I know is this  
I ride for my bros, my slimes  
I can't give quality time (nuh-uh)  
Sometimes we wine and dine  
But most of the time I'm out on the grind (all night)  
I'll work and I'm out all night  
Then negative thoughts go through your mind  
But don't you forget you're mine  
I'm tryna make sure that we'll be fine (ay)

I can say I love you but I'll show you that I do  
When I hit that road I'll pray it gets me back to you  
'Cause it's crazy, my life ain't basic  
And I know you my lady, you the favorite  
When I grip my nine I'm tryna get it in your spine  
On a glide tonight, I hope they don't read me my rights  
'Cause it's crazy, my life ain't basic  
And I know you my lady, you the favorite, yeah yeah

I'm a western kid she's in too hard to count all the shit we've been through (too much)  
Though once when I give her issues 'cause I wipe out my ops out like tissues (they know)  
Don't do it yourself if you need help, you know that I will assist you (of course)  
There's ops in the hood, they'll say what's good, then watch a movie with you  
But I'm not that sentimental, not the type to be throwing pencils (nuh-uh)  
Your life was planned like stencils, but my shit rubbed it out like pencils (wah)  
I woke up here, I will not dare, 'cause you know how it is  
I've got your back till I'm down for six, I'll put that on our kid

I can say I love you but I'll show you that I do  
When I hit that road I'll pray it gets me back to you  
'Cause it's crazy, my life ain't basic  
And I know you my lady, you the favorite  
When I grip my nine I'm tryna get it in your spine  
On a glide tonight, I hope they don't read me my rights  
'Cause it's crazy, my life ain't basic  
And I know you my lady, you the favorite, yeah yeah
