

How?

Youngn Lipz

How will I know
Said you wanna ride for me
Loved before they lied on me
They don't really want the smoke
Jump in the 4
Unknown sources ride with me
We can't show that side of me

If they speaking then it's fine with me
Came from nothing I was born in the deep
They don't know about the nights till dawn
They don't know about the lonely streets
Get the Choppa let it go

How will I know
Many said they'd slide for me
Something like they'd die for me
Im'a go on with the show

I'm coming up from no mattress, we had to double the jackets
Gotta continue the passage
Lord knows what could happen
I never cared about status
My family all that matters
Come from a long line of pain
Guess that's what made me today

I need to put all of my Critics to shame, tell em I'm making a way
I still remember the days with the bro's
Hitting a lick for the change
Now I do shows for the most n designer the toes
Like I was born for the stage
I gotta move like a ghost
I do not care about fame

I'll hold it down till I'm gone, I've been on my own I just got back from the storm
Still yelling free up my blood n free all my bro's Tee, Alipate, Rico
This ain't the life that we chose
Only the life that we know
Feeling like we made for more
I know I got more in stall

How will I know
Said you wanna ride for me
Loved before they lied on me
They don't really want the smoke
Jump in the 4
Unknown sources ride with me
We can't show that side of me

If they speaking then it's fine with me

Something like they'd die for me
Im'a go on with the show

Deep in it
Move with it
I give the lady a new feeling
She know I'm not new to this
Not a secret it's a movie here

They can judge me on the flaws
Put it on everything only one I've spoken to n let them judge me was the lor
d

Fallen angel at the door
Mum forgive me if I fall, shadows creeping out the door
In Camouflage
Its the Holden or the Ford

Excuse me not trynna be rude but swear I'm only hearing talking
I'm no driller no killer but let me know and I'll bring that chalk

How will I know
Said you wanna ride for me
