Restart

Youngn Lipz

I made a few along the way so I keep going

Gotta get to working, we can't starve
I made a few along the way so I keep going
I made mistakes, sometimes too hard
Pushed back the old in with the new
Oh now I swear they come in twos
I gave them nine but ten the view
They doing things I can't believe, no
But too many I can't believe
I promise you I won't leave
And if you let me press the restart

Easy, they said things get harder
But I swear I make it easy
Yeah, there's many problems
But I don't see 'em like Stevie
Remember I was stressing over little
Now it's big things
Don't act like you need me

So what is love?
Oh-oh-oh, yeah
Can't get enough
(Can't get enough, get enough, get enough)

Gotta get to working, we can't starve
I made a few along the way so I keep going
I made mistakes, sometime too hard
Pushed back the old in with the new
Oh now I swear they come in twos
I gave them nine but ten the view
They doing things I can't believe, no
But too many I can't believe
I promise you I won't leave
And if you let me press the restart

AP on me, no it's not for show
They don't know me, we been through the most
Switching up and now they noticing (I think they noticing)
No baby, there ain't no cloning me, okay, let's let it go

Hate on me, yeah they talk a lot
But yeah I know they can't compare to me
No, you can't replace old times
I got to stand on mine
Swear why you tryna take what's mine
Oh no, we don't lose hope
We can never take the rope
Icey baby, you so icey, yeah
Say you want this, baby you get all of it

You said that I give a new feeling
You with someone else then I'm stealing

Gotta get to working, we can't starve
I made a few along the way so I keep going

I made mistakes, sometimes too hard
Pushed back the old in with the new
Oh now I swear they come in twos
I gave them nine but ten the view
They doing things I can't believe, no
But too many I can't believe
I promise you I won't leave
And if you let me press the restart

I made a few along the way so I keep going
