

# Silent

Youngn Lipz

I stay silent but with it  
If you ask then we did it  
Middle finger to system  
I don't trust em even for a minute  
For a fact you don't know  
Cause you blind from the killers  
Watch your back all alone now  
Ask yourself who really do the stirring  
Came from the bottom line  
Know what it really is  
Know when to trust, know when they bluff  
Nah lad get outta here  
Free gang doing time  
Ain't seen another year  
Learn from the pride, try stay alive  
Move past the other bits

I'ma just ride it out for my own, do it for my blood  
Why you gone speak about it, but in person you don't want none  
All of my youngns they ready to splash we don't do it for fun  
Know that my g's steady with the steel access to drums  
Coming from a lot of grits  
Youngn tryna chase a brick  
Learnt how to live with it  
They tryna take the piss  
I swear cuz my soul was down  
Looking for a pack to flip  
Faded but my mind around  
Finish cause I started this  
I need to really go focus and get it  
Made up my mind I don't care watchu feeling  
I'm tryna chase a bag up to the ceiling  
I'm tryna keep fakes out from the realist  
I do not want em knowing how I'm living  
Know if you crossed me ain't no forgiving  
Shrug of my shoulder, fuck it now I'm gone

I stay silent but with it  
If you ask then when we did it  
Middle finger to system  
I don't trust em even for a minute  
For a fact you don't know  
Cause you blind from the killers  
Watch your back all alone now  
Ask yourself who really do the stirring

Move past the other bits

I'm just tryna find my way back home  
There's too many I just can't say no  
Man I'm feeling like I'm in my zone

From a section where they can't go  
Now they all claiming the realest  
Know that I ain't fucking with em  
Those dudes  
Don't really know what the deal is  
If you a g why you fibbing  
I can't  
Stand why you say that you with it  
But then go talk like the critics  
Now days  
They all claiming they the real ones  
But I only seem em as the same bums  
Better get it right, before you get it left  
Speak about me say it with yo chest  
Gotta pay attention you don't know what's next  
Swear I'm on wave and I ain't tryna flex  
I am a long way from my best  
So don't compare me to the rest  
I won't speak more n say less  
I won't speak more n say less

I stay silent but with it  
If you ask then when we did it  
Middle finger to system  
I don't trust em even for a minute  
For a fact you don't know  
Cause you blind from the killers  
Watch your back all alone now
