

# Nightcrawling

Youngr

So close, I know  
I feel it in my bones and that's the truth  
We don't walk alone  
Our spirits so connected at the root

Thoughts in my head  
Of the worries around my neck  
We're not hearing you  
Hopes and dreams  
Are closer than what they seem  
We're not fearing you

Feel it coming  
We're like soldiers you and I  
Let's go find the other side  
Go night crawling through the night  
Feel it coming  
There's a place where we can meet  
Let's go run until we're free  
It is time for you and me  
Yeah, it's time

Yeah, it's time

Just cross the line  
Get deeper every time don't talk the talk  
Just walk the walk  
Embrace the fire  
Use all that desire to make us tall  
Stand up to them all

Thoughts in my head  
Of the worries around my neck  
We're not hearing you  
Hopes and dreams  
Are closer than what they seem  
We're not fearing you

Feel it coming  
We're like soldiers you and I  
Let's go find the other side  
Go night crawling through the night  
Feel it coming  
There's a place where we can meet  
Let's go run until we're free  
It is time for you and me  
Yeah, it's time
