

## My Song And...

Younha

I made a song for you my friend  
I made a song that I will sing for you  
Filling my life with many beautiful lights and a thousand melodies  
You are my paradise

I made a song for you my dream  
I made a song that I will sing for you my friend  
Falling in love with every part of your life  
Until the end of time  
I love you more than my life

I wanna know you more  
When you call me an angel  
When you closely look into my eyes

Even though my love for you may fade away  
I wanna give you more than words ever say  
'Cause I believe in you  
And my song will fill the air when we're apart

Even though my love for you may fade away  
I wanna let my words be true 'till the ends of time  
'Cause I believe you'll never forget  
And I won't forget  
The song in my heart (the song in my heart)

Every time when I was down  
You always came around  
And you're love of the light to my life

I am gonna sing forever  
I am gonna sing forever

Close your eyes  
I wanna give you more than words can ever say  
'Cause I believe in you  
And my song will fill the air when we're apart

Even though my love for you may fade away  
I wanna let my words be true till the ends of time  
'Cause I believe you'll never forget  
And I won't forget  
The song in my heart

I wanna sing for you my friend  
I wanna sing for you with all my heart  
I wanna sing for you my dream  
I wanna sing for you and...
