I don't know where we're going  
But I don't care, I don't care, oh  
Warm sunshine, cool breeze  
We're underneath it together  
The day you came into my embrace  
My world turned upside down  
Every day seems so new, one by one  
I'll discover them with you

Just me and you-oooh-oooh-oooh-oooh, oooh  
The moment we looked at the same place

A beautiful road unfolds  
This strange yet pleasant feeling, oh-oh, oh  
I want to share it with you  
Let's speed down this road forever  
On our road, we drive

Hearts a-a-afloat  
Let's take a ri-ide now  
Hold my hand  
Drive where your heart takes you  
Exciting vi-i-ibe  
I'm singin' la-la-la  
Anywhere is fine  
Let's take a trip, just you and I

Will it be a blue ocean?  
Will it be the vast wilderness?  
Will it be a lush forest?  
We don't know yet  
Yeah, let's just go far away, empty our glasses  
Raise 'em up high and let our names be known  
We can let go today, I don't care  
But I'll remember this excitement

Just me and you-oooh-oooh-oooh-oooh, oooh  
The moment we looked at the same place

A beautiful road unfolds  
This strange yet pleasant feeling, oh-oh, oh  
I want to share it with you  
Let's speed down this road forever  
On our road, we drive

Even if we get lost in a dark tunnel sometimes  
I'll take you to the end

Even if the scenery changes  
I'll stay with you, with you

A beautiful road unfolds  
This strange yet pleasant feeling, oh-oh, oh  
I want to share it with you  
Let's speed down this road forever
