

Hidden Persuaders

Your Old Droog

[Verse 1]

It's Droog

The hidden persuader, the purse raider

Come up with a hot line and finish a verse later

Get to get to it, got a lot of stuff on my mind

Doing everything your Droog even tried to meditation crime

To maintain

Maybe I'll become a fitness instructor, takeover Jack LaLanne lane

Workout, spend the next day in pain

Go hard for a few weeks then invariably the interests start to wane

Still spitting butane on the Q train, fresh from the Ukraine

How 'bout had a whole collection of red wraps and a brain

That's why my project dropped and hit the city harder than collapse and cranes

The old scriptures is more advanced than [?]

Y'all might as well be criss-crossed with your pants backwards

Not a doubt in my mind as single sells

Still take the train back from the lab and get off at steel well

I stay determined waited, putting in work before the terminal hotel sign got terminated

Got my shit permeated, the game, over beats that remind me of my [?] baby

You still selling, but I ain't buying it, or renting

[Hook]

We're not buying your bullshit, darling

We don't buy it at all

Not renting it either baby (not with my hard earned money)

You get nothing at all

[Verse 2]

I'm not stupid!

Despite the fact that I may play the ignoramus

Asking where the hoes at and grab the tit and torch was glamorous

Hammer this into your skull I'm not buying it

You'll never change that but I stop trying

Hipsters mistake my true feelings for sarcasm and irony

I want my name up it lights like N-I-N-E

That why I pump rhymes like foreign [?]

In a major or minor key

Kiko don't screw with the ecosystem

Just got word from T-Ray from the freak show, we about to enlist them

Craft the unique flow, over Tiko Tiko

Dumb it down if it's a little too chique for you Chico

After that, getting up with The Alchemist

Watch Alan [?] make a classic album

Rap camp counsellor, got my whistle and shit

Had a rocket like summer youth and [?] fuck I need a job for?

[?]

They want me to be the next Eminem

Like I'm not already platinum on M&N

With Jay [?]

Shouts to Authentic I've never bought a beat in my life

[Hook]

We're not buying your bullshit, darling

We don't buy it at all

Not renting it either baby (not with my hard earned money)

You get nothing at all
