Closer Than This

Your Smith

Off the ground headed for another take
I remember all the sounds you used to make
But I keep my head down despite the animals on your face
How many times have I said

I've got a feeling we will never get closer than this
I can't imagine there's a way to get closer than this

Catch up with the other kids
We've been falling far behind
Starlight in the middle of the ocean
Opens up my heart tonight

I've got a feeling we will never get closer than this
(Closer than this)
I can't imagine there's a way to get closer than this
(Closer than this)
I've got a feeling we will never get closer than this
(Closer than this)
I can't imagine there's a way to get closer than this
(Closer than this)
(Closer than this)
(Closer than this)

And we keep on pushing, keep on pushing, keep on pushing on
Oh, we keep on pushing, keep on pushing, keep on pushing on

I've got a feeling we will never get closer than this
(Closer than this)
I can't imagine there's a way to get closer than this
(Closer than this)
I've got a feeling we will never get closer than this
(Closer than this)
I can't imagine there's a way to get closer than this
(Closer than this)

And we keep on pushing, keep on pushing, keep on pushing on
And we keep on pushing, keep on pushing, keep on pushing on
(Closer than this)
And we keep on pushing, keep on pushing, keep on pushing on
(Closer than this)
Yeah, we keep on pushing, keep on pushing, keep on pushing on
(Closer than this)
