

# Life Is A Path

Your Smith

It seems to keep rainin', you feel waterlogged  
You could fashion your sheets to the ends of your feet  
Sail away in this fog  
Hang out in Malta, shake some hands in Peru  
Make a name and be rich  
Drum up some kids in year or two

But where would that get you?  
Can't you see it, my love?  
Life is a path that circles you back  
To not having enough  
So, why would you run, dear?  
When all that you'll find  
You had what you need, but you just couldn't see  
What was already there the whole time  
(Yep)  
There the whole time

So now, look at you, darlin', you're swimming in love  
Taking for granted the pure adoration  
From ones that you love  
We sang on your birthday, took turns dancing with you  
We laughed as you spun  
Would you tack that all up for a life somewhere new?

But where would that get you?  
Can't you see it, my love?  
Life is a path that circles you back  
To not having enough  
So, why would you run, dear?  
When all that you'll find  
You had what you need, but you just couldn't see  
What was already there the whole time

I've been through a lifetime  
Halfway to the right side  
You're saying your goodbyes  
Before you've arrived  
I've been through a lifetime  
Goddamn, you're over life  
Quit saying your goodbyes  
Before you've arrived  
I've been through a lifetime  
I've been through a lifetime  
I've been through a lifetime
